**The project – Contributing to EU Green deal and cleaner environment through improved waste management processes and paper recycling in the area of Kumanovo is implemented by MIT GRUP KOMPANI DOOEL import-export Kumanovo** and supported by the project EU for Economic Growth (EU4EG). The project EU4EG is implemented by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) and AREA Science Park, co-funded by EU and the Federal German Ministry of Economy and Climate Action.

### **INVITATION FOR SUBMISSION OFFER**

**Dears,**

MIT GRUP KOMPANI DOOEL Import-Export Kumanovo was established in 2015, driven by a pioneering vision in the green and circular economy. Its primary focus is on transforming waste into eco-friendly products. This innovation aims to replace products made of nylon, styrofoam, plastic, and other non-biodegradable materials. Instead, recycled paper and cardboard are used as the main raw materials. The company's molded fiber packaging, crafted from 100% recycled paper, boasts numerous advantages, including product protection and eco-friendliness. The company's dedication to sustainable growth is evident in its efforts to incorporate informal waste collectors into the system, thus championing the principles of a circular economy.

The project's goal is to launch new packaging solutions, tackle the issue of wastepaper accumulation in Kumanovo, and enhance recycling capacity. This initiative is in line with several strategic policies, underscoring the company's commitment to both sustainable growth and environmental preservation.
